SECURITY SALESMEN OF THE BETTER SORT

Leading scientists have valuly en-eavored to convert a majority of the cheap fuel-oil everywhere abundant into gasoline. An eminent American scientist has recently presented a solu-tion of the problem, and the company that is to develop the new process on a large scale states frankly that its en-gineers admit that by it they can pro-duce gasoline at a cost not exceeding 5c, per gallon.

The stock offering is clean and simple. In the opinion of leading en-gineers those who subscribe to the initial issue of the company's securi-ties must profit hugely as the enter-prise develops.

A selling staff is being organized to bring the offering to the attention of successful business men who can ap-preciate the opportunity and who are in position to take advantage of it. A liberal arrangement will be made with salesmen and their working con-ditions will be all that could be desired in the way of dignity, comfort and convenience.

If you are in search of a better re-turn for your efforts call to-morrow afternoon at 8 o'clock at the Security Sales Department of the U. S. Gaso-line Mambfacturing Corperation, reom 1007, 128 Broadway.

MALE HELP WANTED.

TO MEN OF SUFFICIENT VISION TO APPRECIATE THE POSSIBILITIES OF A GREAT INDUSTRIAL ACHIEVEMENT

Eight men of high standing in the community, each of them a success in scientific and industrial fields, have grouped themselves together to conduct an enterprise which has exceptional money making possibilities. They plan to develop it on a scale which necessitates the enlisting of the financial cooperation of a number of other representative men who have the vision to appreciate its possibilities and the means to participate in it.

The nature of the enterprise is the manufacture of gasoline on a very extensive scale from a cheap by-product of the oil fields which exists in abundant quantity. In the opinion of eminent engineers gasoline of a quality even superior to that now in general use can be manufactured through this process at a cost of not more than 5 cents per gallon.

There is an opportunity for a few high class salesmen to associate themselves, under ideal working conditions, with the fiscal organization which is offering this security. To the men who make good a permanent association, on a profitable basis, is offered. Experience in selling securities is not essential, but only ambitious men of good appearance and clean records will be accepted. An interview will be granted to applicants at three o'clock this afternoon.

One of the most promising business fields at this time is the profession of Higher Accountancy because the field is so rapidly enlarging and on account of its constantly increasing importance it presents the shortest and quickest gains in income.

CAN YOU BECOME AN EXECUTIVE

Yes, if you have the ability to weigh facts and figures and are willing to pay the price. The price is about one hour a day of homo study, guided by certified public accountants who are able business men and practical teachers, under a plan that will grip your interest. THIS IS THE TRAINING

which has made some of the best and most highly paid accountants in America-training which raised them from ordinary bookkeep-ers and clerks to men with incomes from \$3,000 to \$10,000 or more. COSTS NOTHING TO FIND OUT. Without the least obligation you can find out what opportunities the Accountancy field has for you by calling or writing to
